DR. JOHN FERRIS

MONDAY/WEDNESDAY/FRIDAY – 1400-1450 HOURS

CHC 105

**This course will study military history, and war and society, from the earliest recorded times until today. In thematic terms, it will pay roughly equal attention to operations, strategy, military institutions, and their links to society, while also devoting some attention to economic and cultural matters. Given the range of periods and peoples involved in these topics, this course will focus on a number of case studies in some detail, as well as providing a general narrative.**
